Subject: FW: 12/9 Meeting Agenda

John and Andy,

I just wanted to forward to you the email I wrote to Tim Buckley about the presentation to management. I have the room scheduled for 2.5 hours. Although there will definitely be questions and discussions, we are hoping that you can present as much of the data as possible.

Let us know if you have any questions.

Thanks!

Hi, Tim,

It looks like you might have more time, if you want to fill it. It is hard to tell exactly what data "overview" and "signature data" will be including. We are hoping that you can present the broadest possible representation of all the data collected and analyzed for. Let us know what you think.

And, Diana Cutt from EPA Region 2 will be joining us after lunch on Monday. I believe she spoke to Andy about the RESES project that they are starting with NJ regarding soil/groundwater partitioning. We should plan on having her on the extended agenda for 1-3 pm on Monday.

I am out of the office tomorrow, but let's chat more next week.

Subject: [EXTERNAL] RE: 12/9 Meeting Agenda

Sandra,

This is what Andy Lindstrom and I were thinking.

1. Welcomes & Introductions (15 min)
2. Study background and overview (~12 slides; 20 min; Lindstrom)
3. Signature data presentation and analysis (~15 slides; 30 min presentation; 20 min Q&A discussion; Washington)
4. Break (10 min)
5. New data / effect of water treatment on CIPFPECA (4-5 slides; McCord 10 min presentation; 10 min Q&A)
6. Discussion of priorities for ORD assistance going forward (e.g. air/stack sampling) (all; balance of time)

I am at my desk until 5 PM if you would like to discuss.

Tim

Subject: RE: 12/9 Meeting Agenda

Hi, Tim,

Right now, we have 2 ½ hours for the managers meeting. It is scheduled from 10:30 to 1 on Monday. Your group can meet us in the conference room at 428 East State Street (the one we were in the last time) and we can get ready there. We will then walk over to another building for the meeting. I am under the impression that we will have access for a Skype session. I will double check. I know we will have a conference line.

I believe you should take a first shot at the agenda for the managers meeting. Basically, we need to brief them about the results and what they mean. The more results, the better. We will likely need to leave enough time for questions and discussion.

The only other thing that I know is an essential element of your time here is the meeting on Tuesday morning with the crew from Rutgers. I think that meeting will likely be no longer than 1 ½ hours.

You had mentioned a site visit. I spoke with Andy and told him that there would be no way to get EPA on either the Solvay or Dupont site. I am not sure what would be relevant for you to see other than that. Let us know what your thoughts are about that and how much time we would have to allot to that if we chose to do something in the field.

I'm wondering if you are working on a more detailed meeting agenda or if this is something I should be doing or perhaps we can do together? Also, I am getting inquiries about remote access. I assume that we will have a conference line. Is a video / Skype connection possible?
